

REACH Niagara Provider Meeting Minutes

Dec. 7, 2021

We discussed having more wound care supplies for mobile clinic. Some locations may need this more than others. Some items requested/discussed are listed. I suggest you think about what else might be needed and either send to me, or we'll discuss at a future meeting.

- more gauze.
- Cleaning: with saline
- baggies to hand out wound supplies

Some people are asking for more kleenex - we'll make sure the mobile clinic as well as our shelter clinics are stocked with this.

Naloxone training video from public
